DearYoshi - -

I am so saddened to learn of the passing of Professor Imaichi.

Although he and I were not engaged in the same field of research, I respected and admired his work. To me, he was a gracious host during my brief time as a visiting professor at Osaka University, and I remember him warmly for that.

I send my warm regards to you and all his colleagues.

Norman R. Scott

And on a more personal note, Yoshi--thank you for inquiring about me. I'm still doing well, but more slowly and carefully, with the constant vigilant help of my very supportive family. In fact, on May 15 I will celebrate my 98th birthday!

Finally, Yoshi fill me in on your own life as a young retiree. And how are your wife and your children?

Best regards - -Norm Scott
